SUMMER O-ACADEMY

Who were the young people holding your flags during the opening ceremony? There are the young Czech runners attending the summer orienteering academy. Marek Cahel (head coach of Czech Youth Team): „*The Academy presents an open training camp for youth from all over the Czech Republic, in this case connected with the organization of the international race and the opportunity to touch future orienteering stars such as Laura Ramstein, Tereza Janošíková, Philipp von Arx, Riccardo Rancan or Guilhame Elias.*“

O-Academy in 2019 during EUOC.

Kačka, Eliška and Lucka (participants): “*We’ve arrived at the Academy for interesting trainings, meeting new friends from all over the Czech Republic and Europe. It was also nice to measure forces with academics in a common prologue and prove that we wouldn’t get lost among them either.*”

The very first summer o-academy was hold in Olomouc in the year 2014 during the World Universities Orienteering Championship. In the flag crew was that time for example Tereza Janošíková or Barbora Chaloupská both medalist from the Junior World Orienteering Championships. It’s promising to see that this activities influenced the young athletes to combine sport on elite level with academic studies. We’re hoping that we will see this years participants running on same level in few years.
